Johnathan Reyes	HW97K	March 8-80	WFTF	Piston	JSB 8.4	18

Remarks:

Well everyone knows central NC is hot and humid in July and conditions during the match were certainly a testament to those typical conditions. A couple of folks said they would pass on the match due to the heat, and they were arguably the smart ones.

The pre-match announcement notified everyone that we would be doing a WFTF-style match with one shot per target, two targets per lane and three minutes per lane. The thought was that WFTF Worlds attendees could get some practice in before heading to England next month, and we could hopefully finish before the heat really set in. Needless to say, the heat didn't cooperate. But we did have eight shooters show up. JohnnyPiston got the award for the longest drive. We had a few new targets including a "post target" that was especially challenging. By the end of the match everyone was exhausted and awards were not a priority. The scores and equipment are listed in the table.

The next match is scheduled for August 17. See you then.
