## CCGCI Newsletter

July 2014

### *A Message from the vice-president*

Good Day All,

In the last newsletter, we mentioned the rifle range being re-surveyed. If you have been to the range in the last few weeks, you have probably noticed the 18' x 100' concrete pad has been laid, grading for a driving lane to the concrete pad, and the gravel laid around the concrete pad. The executive committee has also approved the purchase of two more steel targets for the rifle range. The shelter should be ready soon. Following these items, the rear berm and parking lot will complete the rifle range project.

We would also like to send our thanks out to Jeff Barbour, John Lea, William Czagas, and \_\_\_\_\_ for their donations to the club. Mr. Barbour donated a lot of plywood, Mr. Lea donated shepherd's hooks to hang buckets to collect brass around the range, Mr. Czagas donated rolls of foam for benches and other projects, and \_\_\_\_\_ donated a cooler for our cookouts and events.

Thanks goes out to Christy Barbry for the club's new gas grill!

Thank you to all members for your support at the cookouts, picking up brass, replacing chicken wire or target frames, emptying trash, or just simply following the rules. It takes the entire club membership to make a safe and enjoyable range.

We will be having some events coming up in the near future, so keep a watch on the website, out at the range, and in your e-mails. Be safe and enjoy some time at the range on these nice days.

Scott Stephens

CCGCI Vice-President

**Steel Targets**

We are working to provide more options when it comes to steel targets on the range. For safety, personal steel targets are not allowed on the range unless authorized **in writing** by the rangemaster (meaning you and the secretary have the written consent form from the rangemaster).

Please contact our rangemaster, Crystal Mann: [crystal@ccgci.org](mailto:crystal@ccgci.org) with any questions. Thanks.

### **The 3 Golden Safety Rules:**

1. ALWAYS keep the gun pointed in a safe direction.
2. ALWAYS keep your finger off the trigger until ready to shoot.
3. ALWAYS keep the gun unloaded until ready to use.
