CCGCI Range Rule Review

Empty Chamber Indicators are required on the range!

Rule #14.

When the range is COLD, all firearms shall be unloaded and have an Empty Chamber Indicator (ECI) installed. Revolvers shall have the cylinders open and exposed.

ECI's do not have to be something fancy from the internet. You can use something as simple as weed trimmer line. Just be sure you can get it back out!

We Need Your Help!

Looking for Carpenters, Woodworkers, general handymen to assist with target assembly for 2 gun matches, replacing target stands, assemble tables/benches for our new ranges, etc.

Looking for anyone with a transportable small tractor or bobcat that is willing to help in small projects of moving a little dirt, gravel, etc.

Looking for anyone who has contacts with contractors that will give free estimates on moving large amounts of dirt (long range construction).

Sign in begins at 8am, and everyone needs to be on the 100 yd range by 8:30am. If you miss the safety briefing, you're not shooting.

If you aren't sure what we do, check out these great videos from January and search CCGCI on YouTube to see more! If this looks like fun, come on out and join us! We welcome new shooters!
